Professional Positions

Senior Web Developer

DataPath

Responsibilities: Product Designer (Creative Design, XHTML, Wordpress).

Working (Full time) from November, May 2014 – Present

Working on a New Design System

The design system will be a collection of reusable components, typography, icon's, graphics, patterns which are guided by clear standards. That can be united together to build any number of applications and other design elements

Few Steps I have been covering

- Applications Analysis & Requirement
- Design UI KIT
- Icon Design
- Scratch and Design Framework
- Layout Design and Prototyping
- Web Icon Library Development

- SVN / Git
- Frontend UI Pattern Development
- CDN Hosting
- Plugins and Resources
- Developer Documantation
